

At Delta, we understand and simplify the complex rules required to operate a bonded warehouse

Based in the UK we have been providing powerful business critical warehouse management solutions for a variety of industries throughout the UK and Europe since 1990. [www.deltawms.co.uk/deltabond](http://www.deltawms.co.uk/deltabond)

## Why Choose DeltaBOND

### Designed for excise bonded warehousing

Developed by warehouse performance management specialist Delta Software, the DeltaBOND solution provides the administrative control required to operate a HMRC excise bonded warehouse.

Designed and built by people who understand excise warehousing with input from HMRC, DeltaBOND is the new standard for bonded warehouse management systems.

In use by many leading excise bonded warehouses, DeltaBOND has a proven track record of managing both small and high volume warehouse operations throughout the UK.

### Automates the production of all HMRC documentation

DeltaBOND is fully compliant with HMRC Notice 197 for the operation of bonded alcohol and tobacco warehouses. Duty calculations are embedded within the system ensuring accuracy and compliance.

DeltaBOND removes the need to employ highly skilled administrative staff with the automatic production of all HMRC required documentation.

DeltaBOND makes full use of available electronic links such as EMCS and ATWD to further reduce the administrative burden.

With an unsurpassed audit trail DeltaBOND enables full stock traceability from point of receipt to point of despatch – for every item that moves through the warehouse using rotation number, batch or expiry date.

**DeltaBOND system improves stock and duty accuracy, reduces labour costs and enhances customer service levels.**

- Fully compliant with HMRC Notice 197
- Automatic duty calculation and reporting
- Automatic production of monthly returns
- Integrated with European EMCS (Excise Movement and Control System)
- Extensive audit trail
- Customer by customer specific configuration and inventory management
- Used by many leading bonded warehouses
- Responsive after sales support

## Customer Service Level Compliance Monitoring

Create and monitor customer specific service level KPIs with our powerful real-time warehouse performance management dashboard. Dynamically updated, it speeds information analysis, highlights issues for attention and enables rapid informed decision making.

## Unsurpassed Audit Trail

With DeltaBOND – all updates are date:time:user stamped with a record of what change has occurred. Embedded with all functions the audit trail enables both users and customs officers to find out who did what and when regardless of how long ago the action was taken. Audit enquiries may be performed on any record held on the system.

## Extensive traceability

Track and trace any stock item and its attributes throughout its life anywhere in the warehouse and beyond. Using almost any identifier, including batch/lot numbers, expiry dates and serial numbers enables full product/QA recall reporting - ensuring compliance with ever increasing customer demands, industry regulations and best practices.

## Graphical Warehouse Map

As part of the DeltaWMS warehouse management system the easy to use, real-time warehouse performance tool optimises warehouse space and enables you to locate stock using a wide range of identifiers including batch and expiry date, create locations, storage zones, working and truck access areas and pick faces – all at the click of a mouse. Guaranteeing product segregation and storage compliance, as well as allowing locations to be filled optimally. Fully integrated with both the reporting suite and the real-time RF/Voice task manager.

## Reduced/Simplified Administration

With embedded duty calculations, automatic production of HMRC documentation and fully automated links to HMRC systems such as EMCS, DeltaBOND will dramatically reduce the effort and skills required to maintain your bonded warehouse compliance.

All reports can be previewed, saved or emailed and no data is ever lost, so reprints or historical enquiries are all available at the click of a mouse.

## Easy HMRC approval process

The combination of ease of use, accuracy of duty calculations, complete audit trail, readily understood reports and documents and a growing user base results in straightforward system approval process with your local HMRC officer – **we have never failed to gain approval.**

## Speed up processing and eliminate re-keying

DeltaWMS' comprehensive data interfaces use powerful, industry standard technology to enable a continuous flow of data between you and your customers - speeding up transfer of information such as picking requests and despatch confirmations to avoid re-keying errors and reduce administration costs.

## Increase Accuracy & Reduce Labour Costs

Use real-time radio-frequency (RF) with barcode scanning or hands-free voice technology to manage all operational activities within the warehouse - significantly improving accuracy and productivity. Task driven with a full management suite for total control and visibility.

## DeltaBOND Out-of-the-box
